Slide:ology® Virtual Workshop

An education in
visual thinking

Turn Ideas Into Visuals

Most of us aren't designers, yet we create presentations all the time.

When we design slides, we can fall into classic traps—overusing bullet points, cramming multiple ideas on one slide, using lots of colors, shapes, and fonts. When we present to an audience, these slides don't do our ideas any favors.

We blame PowerPoint® when we wind up with cluttered unattractive slides, but presentation software is just a vehicle for our communication.

We forget that it's our job to communicate our idea, so we often show visuals that obscure that idea, because visual expression isn't easy or intuitive.

We may not have learned it in school but **learning to think visually is crucial in persuasive communication.**

Apply Visual Thinking With Slide:ology

Bringing together compelling content with engaging visuals is a powerful way to move an audience. Slide:ology helps you get better at the visual part. It's not about pretty pictures, it's about persuasive visual communication.

In this interactive virtual workshop, you'll learn to:

- 01** Identify the characteristics of a great slide in your own or others' presentations
- 02** Analyze a range of slide types and know when to use them
- 03** Sketch your ideas like a designer
- 04** Apply expert design techniques when creating slides
- 05** Use S.P.A.C.E. methodology to overcome common slide design challenges

Learning Objectives

With Slide:ology, you'll be on your way to developing visual thinking skills for yourself or your organization.

Understand Principles of Visual Design

Practice signal-to-noise ratio and The Glance Test™

Use critique language

Analyze a range of slide types and know when to deploy them

Apply S.P.A.C.E.™ methodology to your slides

Apply Expert Design Techniques

Compose memorable diagrams from words

Design with grids

Brainstorm images for abstract concepts via wordmapping

Differentiate presentations from Slidedocs®

The Virtual Workshop Experience

You can't read your way into making better presentations. Hands-on learning, personalized feedback, and structured practice is the best way to see results. We also know **variety is essential to effective learning**, so you can expect to switch between many modalities throughout the day.

Who Is Slide:ology for?

Presentations are a necessary part of business but few of us have been taught to use them effectively. It's time to change how you communicate.

This workshop is built for...

WHAT'S INCLUDED

Workshop Details

In four 90-minute sessions, you'll enjoy training led by a world-class instructor, with insightful materials and applied learning. We keep class sizes cozy—at 12-24 attendees—to maximize collaboration and get the most valuable facilitator feedback.
